PREFACE.

The present is the twenty-sixth year of the Winnipeg City Directory. A comparison with the work of former years shows the rapid growth the city is making in all its lines.

In the following pages will be found statistics showing the city's progress in building, banking, postal, education, etc.

It is customary for the publishers of city directories to give an estimate of the population of the city based on the number of individual names contained in the book. A synopsis of the names appears below, and indicates an incredible amount of labor and painstaking to accomplish this result.

This Directory contains 23,786 individual names, from which we estimate the population of Winnipeg to be 77,304. This is an increase of 13,744 over a year ago.

Thanking all who have furnished information, and especially to our numerous advertising patrons and subscribers.

Yours Respectfully,

HENDERSON DIRECTORIES, LTD.

City of Winnipeg.

POPULATION.

The most substantial increase in the population of Winnipeg during the past years is shown by the increase in the number of names in the Directory.

This volume contains 23,786 individual names (exclusive of 2,117 names of firms and companies), an increase of 4,229 over last year, which indicates an increase of 13.744 in population.

The estimate is based on the number of individual names in the Directory, multiplied by 3 1-4, which we consider correct for this city.

The multiplier varies in the different cities from 2 7-8 to 4, the lower being used in cities where the names of domestics are inserted.

We give below a table showing the number of names in the Directory for the past five years, also for the years 1881, 1891, 1901.

Year.	Individual Names.	Firms or Companies.	Total Addresses.	Estimated Population.
1899	14,001	1,048	15,049	46,070
1900	15,151	1,324	16,475	50,503
1901	16,033	1,509	17,542	52,443
1902	16,618	1,577	18,127	54,393
1903	19,557	1,814	21,371	63,560
	1881---1891---1901,			
1881	2,521	100	2,621	8,403
